- Maya & MEL
- Nuke
- Houdini & Mantra
- Realflow
- Mental Ray & Vray
- Arnold

Languages
- French (Intermediate written & spoken)
- Italian (Beginner written & spoken)

Professional Experience

Render Wrangler
Animal Logic
2013-2014

I performed wrangler duties on renders for *The Lego Movie* and used python and linux scripts to make web scraping and productivity tools.

Web Developer Internship
LawPath
2013

Using Ruby on Rails, Postgres and Slim I assisted this start up company on both backend and frontend features.

Freelance Animator
2010 – 2013

I completed various freelance work from 3D to business animations during my studies. Projects ranged from 3D to 2D, paid work as well as pro bono work to help out on friends' projects.

3D Previz / Layout Internship
Onyx Studio, Luxembourg
2010

While travelling overseas I came across the opportunity for a short internship doing 3D animation layouts for a new television series.

Princeton Publishing, North Sydney
2009

Casual work involving the preparation and packaging of medical manuals for health practitioners.

Liquorland, Neutral Bay
2007 – 2008

Standard POS duties such as serving customers at the register, cleaning and handling stock as well as finding the right wine for their meal at nearby BYO restaurants.

Education

Sydney Dev Camp
2013

A 10 week intensive Ruby on Rails course. It was my first exposure to Rails and it really solidified my previous programming experiences, making me more comfortable using MVC frameworks and with programming in general.

Advanced Diploma in Screen & Media
Academy of Interactive Entertainment
2011 – 2012

After playing around with various 3D software I decided to pursue a full-time course in film animation to indulge this new passion. As a result I gained a better understanding of computer software and by using programming to build tools for the software (via Python) I was opened up to new field in IT.

Bachelor of Arts & Science (B.A.S.) , Digital Cultures Major
University of Sydney
2006 – 2010

I acheived a distinction average in this generalist degree involving many different subjects where I had the opportunity to learn from different faculties from IT to language to Law and Economics.

IDEM & ALFMED, Perpignan, France
2009
During a short trip overseas I found myself learning French at these two schools in the south of France.

Certificates

Certificate of Completion, *2013*
Sydney Dev Camp

Certificate of Internship (Certifcat de stage), *2010*
Onyx Studio, Luxembourg
